ALL'OPERA PER CUSTODIRE E COSTRUIRE LEGAMI

"Heart speaks to heart"

John Henry Newman

"This is the only and eternal education: to be so sure that something is true that you dare to tell it to a child."

Gilbert K. Chesterton

The path named "Keepers" has the aim to cherish the bonds we have with our history and build new ones for our history. Authors, witnesses, educators and illustrators pictured the stories of those who lived dramatic events that marked their lives. They wish to give us, through their stories, an opportunity to discover Truth, Beauty and Justice, enclosed in these "from heart to heart" short stories, being sure enough that "you dare to tell it to a child".

The path "Custodi - All'opera per custodire e costruire legami" is an initiative promoted by Santa Caterina da Siena APS in cooperation with the Region Emilia-Romagna, project financed through the call for the promotion of a Culture of Peace year 2025.

UN'AMICIZIA INESAURIBILE

for

"an authentic Peace mentality"

Over the years we have known friends from all over the world that share with us the same hopeful gaze in front of reality.

We discovered that fostering these bonds contributes in building "an authentic peace mentality": an hypothesis that becomes a way thanks to a company. These bonds are generated by forces that change not only the History, but also the Human Heart.

"Sometimes to find the answer to our questions, we need an unexpected encounter with someone"

– 5th grade, Lagosanto (FE)

The answer to our desire for happiness is revealed in a fact that introduces something new.

"if there is a problem go to those who love you. Always trust adults"

– 7th grade, Loiano (BO)

The bond with those who love us allows to face all circumstances.

"We mustn't abandon our dreams, but try to make them come true by fostering our talents and asking adults for help"

– 7th grade, Ferrara

A man builds peace through education because everyone has a gift that must be cultivated

"No one can make it on their own, everyone needs company "

– 6th grade, Masi Torello (FE)

The bond with those who love us become a way to discover ourselves and get down to work

"Helping others should be a law, make everybody happy is a good thing, Every human being should be happy. helping brings happiness to everyone"

– 5th grade, Codigoro (FE)

When you find the path to be happy you follow it and share it to everyone.

"Friendship is important, study is important, in times of difficulty you help each other to resolve it"

– 4th grade, San Benedetto

This path teaches us a method to interpret reality in a new way, which is why it must be preserved and built.

The encounter can also happen to us

Listening to the stories of Lea, Kachen, John, Don Simone, the Soldier, Fabien and Rémi we noticed that they also describe our lives and questions. Each child told what he most recognized himself in, trying to find what helps him build "*microclimates of peace*". By doing this we become **keepers** of an encountered good, with the goal to take care of it and share it. The encounter reveals a new gaze on reality and entrusts us with this task.

"There is always a bright side, to find it you need someone"

– 6th grade, Ferrara

"If you search for happiness you can find it everywhere, we must let ourselves be amazed"

– 4th grade, Ponte Langorino (FE)

"To do something everybody needs company"

– 5th grade, Ferrara

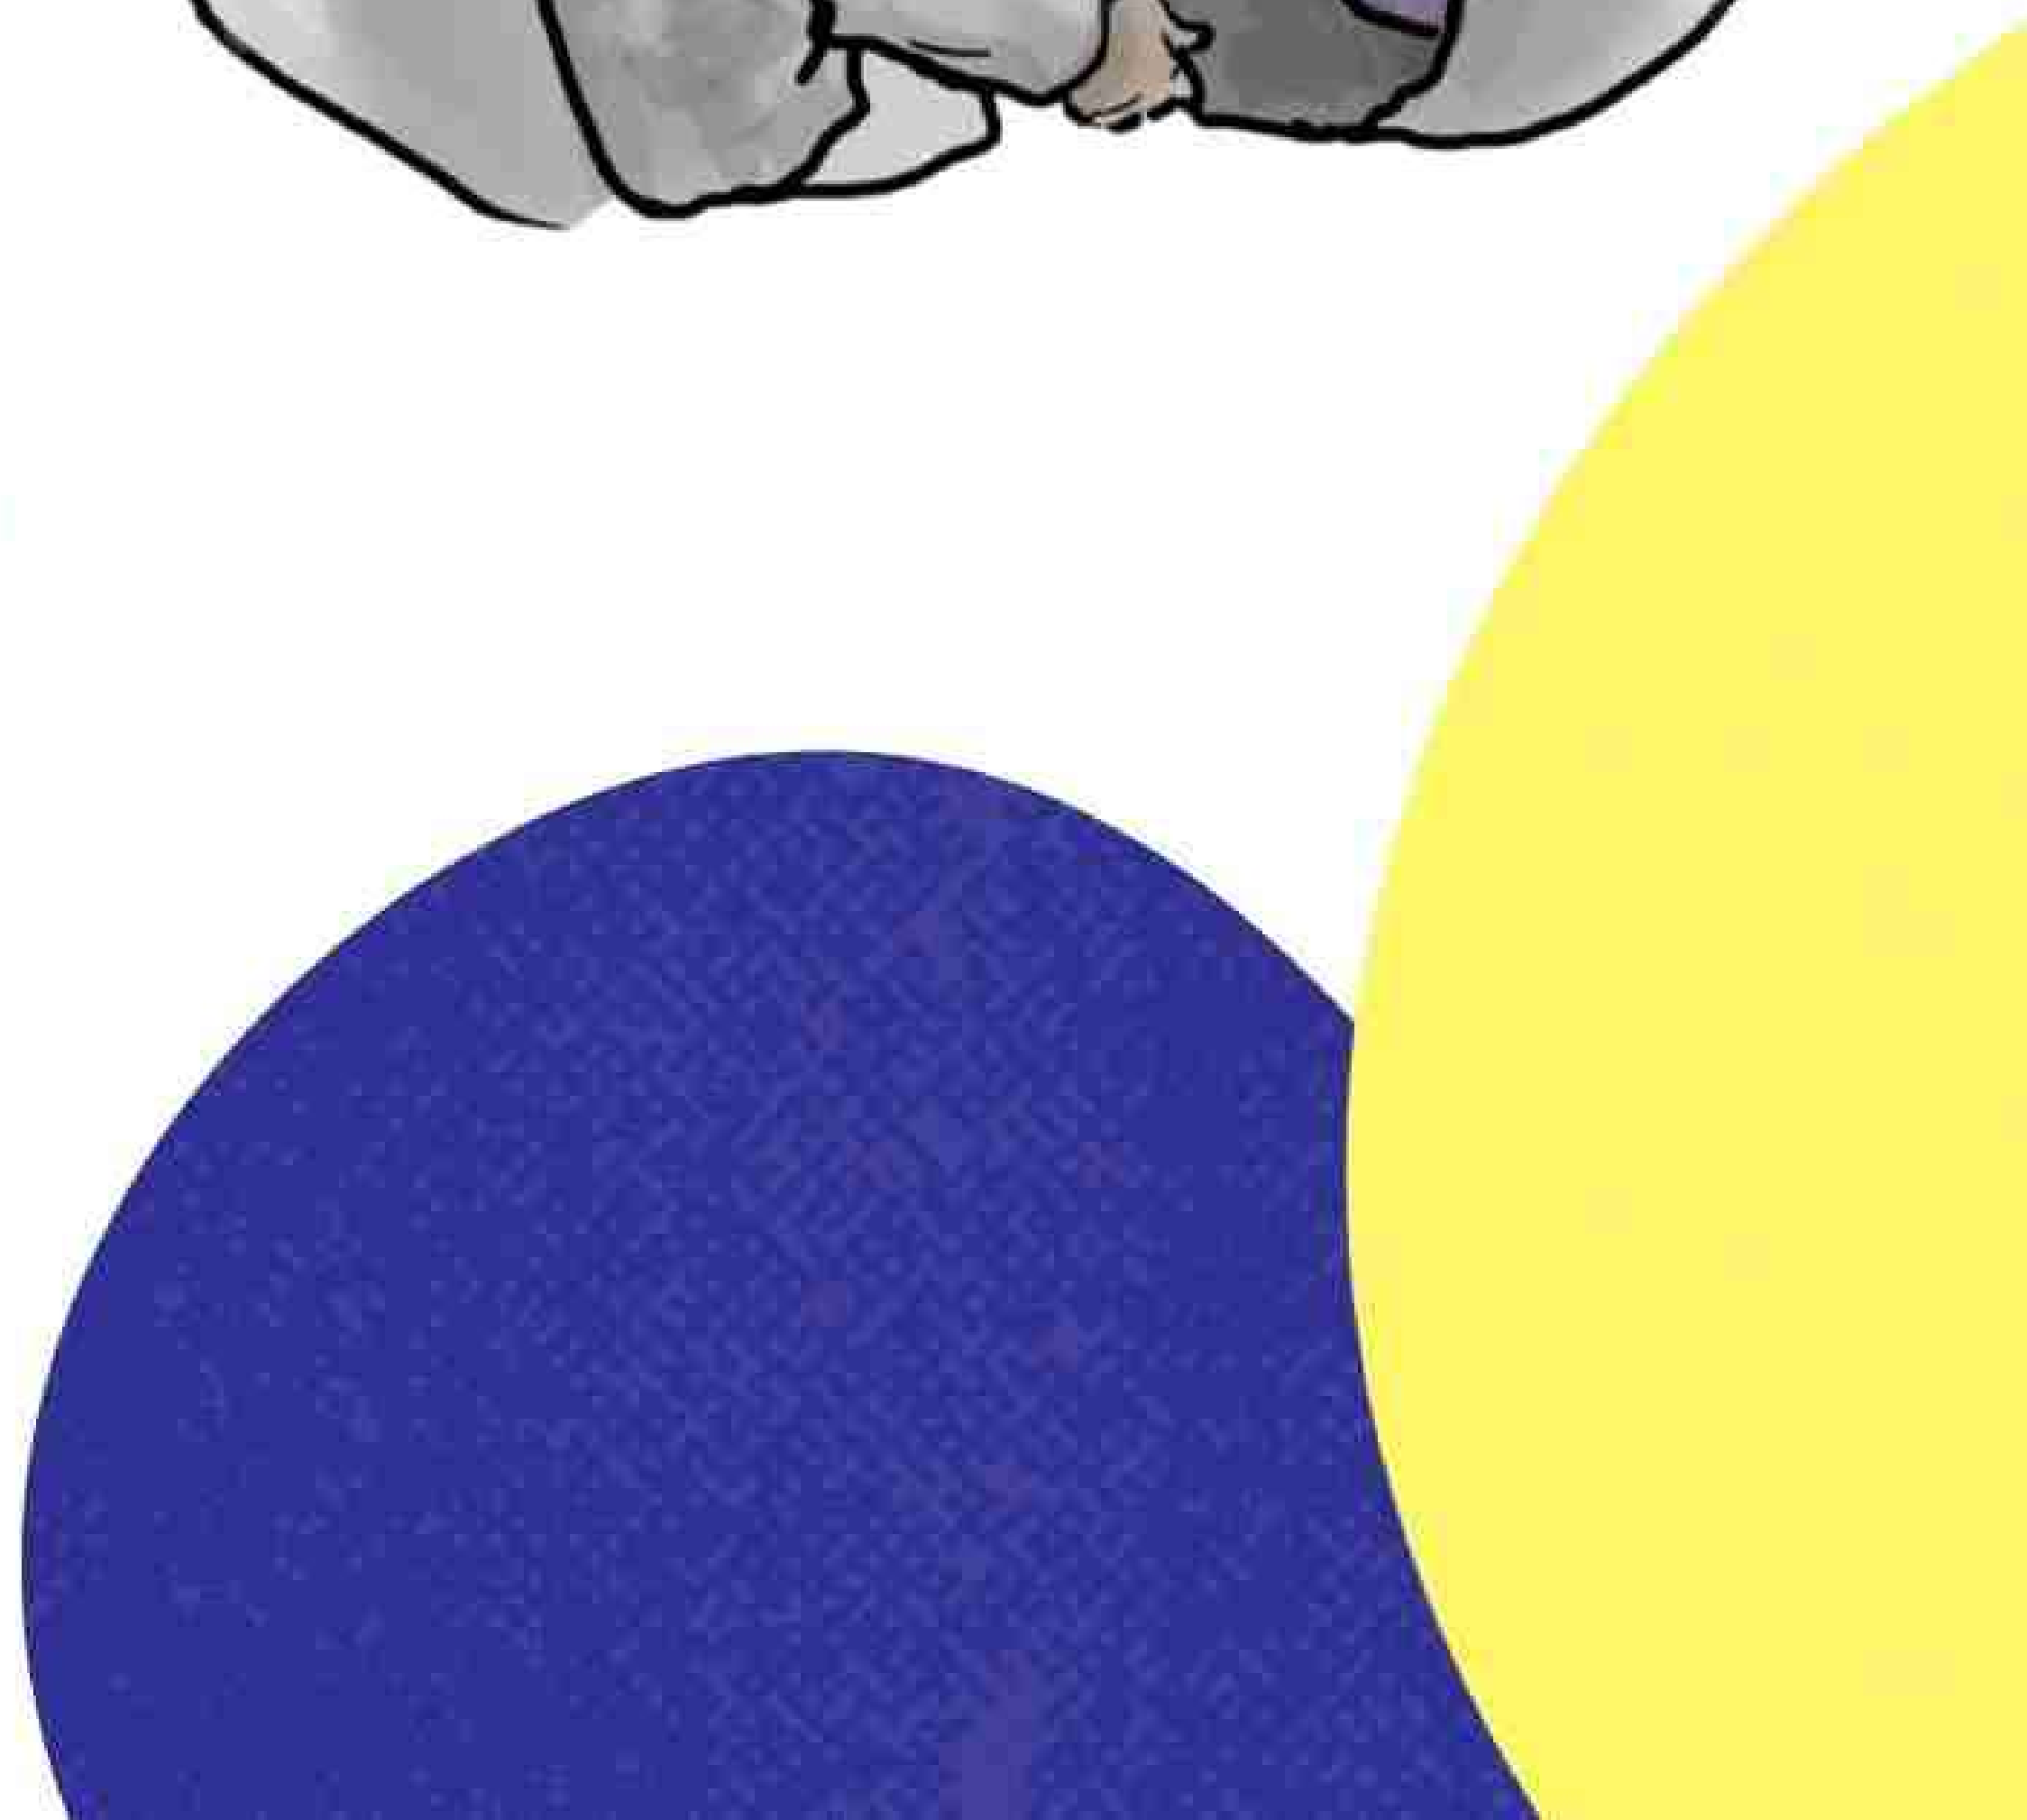

"We must spread good things to one another, companionship is a precious gift"

– 4th grade, Loiano (BO)

"We mustn't abandon our dreams, but try to make them come true by asking adults for help"

– 1st media, Masi Torello (FE)

Being Keepers

We all have a story and many questions.
The Keeper is never *at peace* and does not leave others *in peace* with their questions.
The Keeper has friends and teachers who help him to discover something new in what he already has in his hands.
The Keeper, helped to truly see, comes upon a new hypothesis that he cannot help but verify.
